

Black Eye for America: The Tragedy of Black Politics

In her groundbreaking book, *Black Eye for America*, Carol Swain argues that black politics has failed the black community. She contends that the policies promoted by black politicians have actually exacerbated the problems facing blacks, such as poverty, crime, and family breakdown.

Swain's book is a provocative and controversial challenge to the conventional wisdom about black politics. She argues that the black political establishment has become a self-serving elite that is more interested in maintaining its own power than in addressing the needs of the black community.

Swain's book is based on extensive research, and she provides a wealth of data to support her arguments. She shows that black politicians have been

largely ineffective in improving the lives of blacks. In fact, she argues that their policies have often made things worse.

For example, Swain shows that affirmative action policies have failed to increase the number of blacks in college and have actually led to a decline in the quality of education for black students. She also shows that welfare policies have created a dependency culture among blacks and have discouraged them from working.

Swain's book is a must-read for anyone who wants to understand the problems facing the black community. She provides a fresh and provocative perspective on black politics that will challenge your assumptions.

About the Author

Carol Swain is a professor of political science at Vanderbilt University. She is the author of several books on race and politics, including *The New White Nationalism in America* and *Beating Black Backlash*.
