The definitive textbook for APRNs and students preparing to become APRNs

Clinical Reasoning and Care Coordination in Advanced Practice Nursing is the definitive textbook for APRNs and students preparing to become APRNs. This comprehensive and up-to-date text provides a foundation in clinical reasoning and care coordination, essential skills for APRNs in today's healthcare environment.

This text is organized into four sections:

- **Section 1: Foundations of Clinical Reasoning**
- **Section 2: Clinical Reasoning in Advanced Practice Nursing**
- **Section 3: Care Coordination in Advanced Practice Nursing**

- **Section 4: Special Topics in Clinical Reasoning and Care Coordination**

Section 1 provides a foundation in the principles of clinical reasoning, including the nursing process, critical thinking, and evidence-based practice. Section 2 applies these principles to the specific context of advanced practice nursing, including the role of the APRN, the APRN scope of practice, and the APRN-patient relationship. Section 3 focuses on care coordination, including the principles of care coordination, the role of the APRN in care coordination, and the challenges of care coordination. Section 4 addresses special topics in clinical reasoning and care coordination, such as cultural competence, ethical decision-making, and end-of-life care.

Clinical Reasoning and Care Coordination in Advanced Practice Nursing is an essential textbook for APRNs and students preparing to become APRNs. This comprehensive and up-to-date text provides the knowledge and skills needed to make sound clinical decisions and coordinate effective care for patients.
