

Clinical, Technical, and Administrative Foundations for Evidence-Based Practice

A Comprehensive Guide for Healthcare Professionals

In an increasingly complex healthcare landscape, evidence-based practice (EBP) has emerged as a cornerstone of delivering high-quality patient care. This comprehensive guide provides a systematic approach to implementing EBP in healthcare settings, covering clinical, technical, and administrative perspectives.

Telemental Health: Clinical, Technical, and Administrative Foundations for Evidence-Based Practice (Elsevier Insights) by Carolyn Turvey

Written by a team of experts in EBP, this book provides a comprehensive overview of the essential components of EBP, including:

- The principles and concepts of EBP
- The process of conducting and interpreting research

- The application of EBP to clinical practice
- The technical and administrative support needed for successful EBP implementation

With a focus on practical application, this book provides healthcare professionals with the knowledge and skills they need to:

- Identify and evaluate evidence-based resources
- Apply EBP to their own clinical practice
- Collaborate with colleagues to create an EBP-supportive environment
- Evaluate the effectiveness of EBP interventions

Whether you are a nurse, physician, or allied health professional, this book is an essential resource for anyone who wants to deliver patient-centered, evidence-informed care. With its clear and concise explanations, real-world examples, and practical tools, this book will help you to improve patient outcomes and advance the practice of healthcare.

Key Features

- Provides a comprehensive overview of the principles and concepts of EBP
- Covers the process of conducting and interpreting research
- Discusses the application of EBP to clinical practice
- Explores the technical and administrative support needed for successful EBP implementation

- Includes real-world examples and practical tools to help healthcare professionals implement EBP in their own settings

Target Audience

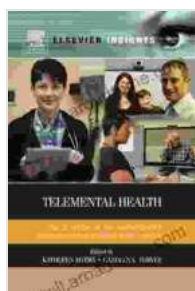

This book is intended for healthcare professionals, including nurses, physicians, and allied health professionals, who are interested in implementing evidence-based practice in their work. It is also a valuable resource for healthcare administrators and policymakers who want to create an EBP-supportive environment.
