On-camera flash can be a powerful tool for lighting your subjects and creating beautiful images. But it can also be tricky to use. If you don't use it correctly, you can end up with harsh, unflattering light.

This comprehensive guide will help you master on-camera flash techniques for digital wedding and portrait photography. You'll learn how to use your camera's built-in flash and external flash units to create stunning, well-lit images.

## Chapter 1: Understanding Flash

In this chapter, you'll learn the basics of flash photography. You'll cover topics such as:

- How flash works
- The different types of flash units
- How to control the power of your flash
- How to use flash in different lighting conditions

## **Chapter 2: Using Your Camera's Built-In Flash**

In this chapter, you'll learn how to use your camera's built-in flash to create beautiful images. You'll cover topics such as:

- The different modes of your camera's built-in flash
- How to use your camera's built-in flash to fill in shadows
- How to use your camera's built-in flash to create catchlights
- How to use your camera's built-in flash to bounce light

## **Chapter 3: Using External Flash Units**

In this chapter, you'll learn how to use external flash units to create even more stunning images. You'll cover topics such as:

- The different types of external flash units
- How to choose the right external flash unit for your needs
- How to use external flash units to create off-camera lighting
- How to use external flash units to create multiple light sources

## Chapter 4: Advanced Flash Techniques

In this chapter, you'll learn some advanced flash techniques that will help you take your photography to the next level. You'll cover topics such as:

- How to use flash to create dramatic lighting
- How to use flash to freeze motion
- How to use flash to create special effects

This comprehensive guide has covered everything you need to know about using on-camera flash for digital wedding and portrait photography. By following the tips and techniques in this guide, you'll be able to create beautiful, well-lit images that will wow your clients.

So what are you waiting for? Grab your camera and start using flash today!
